

HLA Heatless Desiccant Dryers 2.5-141.6 m³/min, 90-5,000 cfm

HLA heatless desiccant air dryers are designed to increase reliability and efficiency for consistent delivery of clean, dry compressed air. Our reliable, high strength, non-acidic desiccant provides maximum performance and is environmentally friendly.

Features

- **Save on Space:** Low profile design allows dryer to be placed in areas with low overhead clearances
- **Easy, Safe Maintenance and Service:** Rear-mounted inlet and outlet manifolds provide convenient access to important valves and components
- **Rugged Design:** Standard NEMA 4 electrical panel for moisture-prone or hose-down industrial applications
- **Smart Control:** Enhanced controller provides precise pneumatic valve sequencing, automatic maintenance reminders and an easy to read status panel under all lighting conditions
- **Reliable Operation:** Long-life stainless steel switching and purge valves feature ceramic seats and an extended service interval

HLA 1800
